Mentally Handicapped Persons

2196. SHRIMATI VEENA VERMA : Will the Minister of WELFARE be pleased to state :

(a) what is the estimated number of mentally handicapped persons in different age group;

(b) whether it is a fact that in a large number of cases the fact of mental handicap never comes in record, mainly because of the innivent trauma and depression suffered by the person concerned on the revaluation of the ailment to prime and the social sigma attached thereto; and

(c) whether there is any scheme or programme for rehabilitation and resettlement of such persons in society, if so, the details in this regard ?

THE MINISTER OF WELFARE (SHRI SITARAM KESRI) : (a) No nationwide detailed survey has been conducted so far in the country. However, in June, 1991 the National Sample Survey Organisation conducted a nationwide sample survey in the 47th round and collected information regarding the number of persons with mental handicap (mental retardation) in the age group 1-14 years. The results are yet to be published.

(b) Persons with mental retardation are unlikely to understand the implications of social stigma because of deficiency in cognitive development. On the contrary, it is the parents who may hide the information and not report about the child having mental retardation in tht family.
